Cybersecurity - Lycee Guillaume Kroll

- **Courses taken** : Applied Cybersecurity
- **Favorite areas of study** : Python Programming, Network Infrastructure, Applied Cybersecurity

General Certificate of Secondary Education

2020

Field: Engineering - Lycee Bel-Val

- **Courses taken** : Advanced Fundamentals in Science and General Engineering
- **Favorite areas of study** : Java Programming, Technology, and Mechanics

PROFESSIONAL EXPERIENCE

Freelance 3D Modeler - Independent

2020 - 2024 (4 years)

As a freelance 3D modeler, I gained solid experience in autonomous project management, meeting deadlines, and client communication. This role also helped me develop a continuous learning capacity to stay up-to-date with the latest techniques and technologies in the field.

Internship - SüdStroum

04/2019 (1 month)

I gained in-depth insight into how a major energy distributor provides its services, from accounting to renewable energy projects, while also assisting an engineer with the setup of remote-accessible electric meters.

Internship- ERPELDING FRANK & Partners sàrl

03/2018 (1 month)

Assisted in automating legal documents to reduce manual entry time. Provided technical support and managed the company's social media site.

Internship - Paul Wurth

04/2017 (1 month)

Participated in informational visits across several departments, covering IT and engineering offices. I also accompanied Geprolux representatives on various construction sites, including the Cactus shopping center in Bettembourg.
